Smart Life App

works with amazon alexa

works with the Google Assistant

02 YEAR WARRANTY*

INTRODUCTION & WARRANTY

Thank you for selecting and buying V-TAC SMART LED Lighting. V-TAC will serve you the best. Please read these instructions carefully before starting the installation and keep this manual handy for future reference. If you have any other query, please contact our dealer or local vendor from whom you have purchased the product. They are trained and ready to serve you at the best. The warranty is valid for 2 years from the date of purchase. The warranty does not apply to damage caused by incorrect installation or abnormal wear and tear. The company gives no warranty against damage to any surface due to incorrect removal and installation of the product. The products are suitable for 10-12 Hours Daily operation. Usage of product for 24 Hours a day would void the warranty. This product is warranted for manufacturing defects only.

Multi-Language Manual - QR CODE

Please scan the QR code to access the manual in multiple languages.

SAFETY WARNING

1) LED panels are limited to indoor use and are not advisable for use in humid environment
2) LES panels cannot be installed on the surface of ordinary combustible materials. Increase in temperature is normal for panels.
3) Do not exert external force or throw on the panels.
4) LED Panels should be stored in cool/dry place. Always make sure the environment is clean before installing the panel.
5) Do not discard the LED panel with regular trash. Panels are made with electronic components and should be properly disposed at designated locations with unified treatment like traditional electronic equipment.
6) Please make sure to turn off the power before starting the installation.
7) The light source of this luminaire is not replaceable, when the light source reaches its end of life the whole luminaire should be replaced.
8) Install only by certified Electrician.

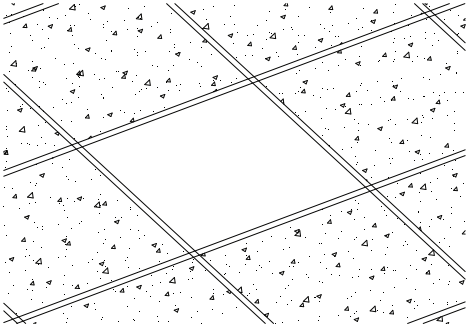

This marking indicates that this product should not be disposed of with other household wastes.

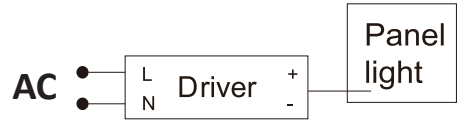

Caution, risk of electric shock.

INSTALLATION

1. Make a hole ceiling.

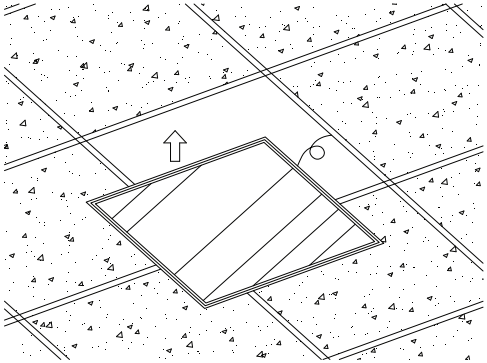

2. Wiring the DC cable of the panel to the power supply. And wiring the AC source cable to the powersupply

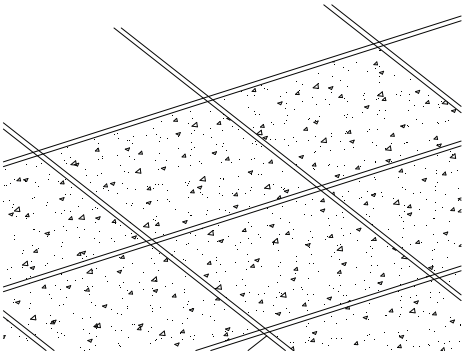

AC: 200-240V

3. Put up the panel onto the ceiling.

4. Turn on the switch and test the fixture light on.
